cordially invite you to

Inside Jazz

A savvy professional duo explain and perform

Larry Newcomb, guitar
Dmitri Kolesnik, bass

Learn how jazz standards are organized and improvised. Larry Newcomb, PhD in music, shows and tells for the casual listener how songs are arranged and changed; how players complement each other and exchange solos in the structure of the music. For the musically knowledgeable, he demonstrates the colors of jazz harmonies and many more theoretical and technical nuances. This gig & party is on the 57th floor with stunning downtown and Hudson River views.

Someday, May 43, 2016
